Towing Tips • Trailer-Brake Controllers**

HOW TO USE THIS GUIDE

Tow ratings for all vehicle manufacturers are listed in alphabetical order, and are organized by model type and configuration. In most instances, you will find a letter (or letters) which identify the equipment that the rating is based on, i.e. automatic or manual transmission, gear ratio, towing package, etc. You will find the meaning for each of these letters in the "Key to Charts" section on page 18.

If there is no letter after the rating, that means there is only one rating available. Likewise, you may find the word "all" in the engine column; that means all available engines are capable of that particular tow rating.

Because each manufacturer lists its vehicles differently, we have found it necessary to make some changes in an effort to keep this guide consistent and concise. For example, Ram trucks are listed with separate tow ratings for each trim level; while we understand

that equipment adds weight and therefore reduces towing capacity, we simply don't have room to publish separate ratings based on a 50-pound weight difference. Likewise, GM doesn't have separate conventional and fifth-wheel tow ratings, and instead simply indicates a separate rating for models that are equipped to tow a fifth-wheel. So in the GM section, you'll note that some models have two ratings separated by a slash; the first rating is for conventional towing, the second is for fifth-wheel towing.

Where applicable, we've also included relevant manufacturer's notes for a particular vehicle or model line, but always check with your dealer for details on the model you plan to purchase, including tow rating, payload capacity, gross vehicle weight rating (gvwr), gross combination weight rating (gcwr) and gross axle weight ratings (gawr). 🚛

2012 TOW RATINGS

Engine	Tow Rating	Engine	Tow Rating	Engine	Tow Rating	Engine	Tow Rating	
Explorer	3.5L V-6	2000	F-150 SuperCab Std. Bed 4WD	3.7L V-6	5,500 (H)	F-250/F-350 Reg. Cab SRW 4WD	6.7L V-8 TD	12,500 (all)
